July 30, 2020

Dear Parent/Guardian:

I would like to let everyone know that developing a return to school plan was a challenging undertaking given the constraints placed upon us by the State Education Department. Over the last several months we have been creating a re-entry plan that acknowledges both safety and gets our students back in the classroom.

There are a tremendous amount of expectations that the District had to comply with in the development of our plan and we are sharing this with you before it is shared with the public.

Our process started back in May with over 100 stakeholders actively involved. Given the parameters and the short timeline, we are feeling good about where we landed with our plan. I understand that this may not meet the needs of all families, however, things may change based on the governors message or updated data from the county. The hybrid models are located on pages 37-40 within the reopening document.

The District will share scheduling plans with students, families, and staff in a timely manner in order to accommodate childcare and work arrangements.

Thank you for your time and patience as we navigate through another challenging time as we educate the leaders of tomorrow. Please [click here](#) to view the plan online.

Sincerely,

Daniel D. Bowles,
Superintendent of Schools
