October 5, 2020

Dear North Syracuse Central School District Parents and Guardians:

This afternoon, the District was notified by the Onondaga County Health Department that an employee at KWS Bear Road Elementary School has tested positive for COVID-19. Because we received notice late in the day and are currently in the process of working with the County Health Department to identify students and staff that may have been in contact, the District will take the proactive measure of closing the school building for the day on Tuesday, October 6.

Students scheduled to attend in person learning at KWS Bear Road Elementary School on the October 6 will switch to remote learning for the day. All other schools in the District will operate as normal following the set hybrid schedule.

While confidentiality and privacy constraints prohibit the District from providing personal information about the employee impacted, we can let you know that he/she was last in attendance on Friday, October 2 and is currently quarantined by the County Health Department.

We appreciate your support and understanding on this matter. If you have any questions or concerns, please reference the District website at www.nscsd.org.

Sincerely,

Daniel D. Bowles
Superintendent of Schools
