Dear Parent:

Again this year, as part of the goal to raise education standards in New York State, the Board of Regents and the State Education Department have issued a "School Report Card" for every public school. The data are based on the 2016-2017 state assessments. As part of the district's commitment to continuous improvement, we will use this School Report Card to guide the Comprehensive District Education Plan.

When examining the chart below, there are terms that need clarification:

Participation Standard – This is the percentage of students in this school that took the New York State Assessment. The state requires at least 95% of the students enrolled in specific grades to complete the assessment.

Performance Index – This is a number that indicates (through a state formula) how the students in this school performed.

Effective Annual Measurable Objective – This is the benchmark set by New York State for this school for students to meet.

When analyzing this information, compare the Performance Index with the Effective Annual Measurable Objective. The Performance Index should be higher than the Effective Annual Measurable Objective for a school to be considered to be in good standing.

The specific areas tested are listed below. Please note the following academic results for Gillette Road Middle School:

<i>Assessment</i>	<i>Participation Standard = 95% or higher</i>	<i>2016-2017 Performance Index</i>	<i>Effective AMO (standard)</i>	<i>Adequate Yearly Progress</i>	<i>State Accountability Status</i>
<i>Middle Level ELA^{*+}</i>	64%	122	107	Yes	Good Standing
<i>Middle Level Math^{*+}</i>	61%	135	105	Yes	Good Standing

** Subgroup (black or African American students) failed to make Adequate Yearly Progress because of performance.
- Subgroup (students with disabilities) failed to make Adequate Yearly Progress because of performance.*
