October 7, 2020

Dear Parents of Parochial School Students.

The Onondaga County Department of Health has notified the North Syracuse Central School District that a parochial school student transported on the same bus as your child on October 2 has tested positive for COVID-19. Given that students were wearing masks, following guidelines for social distancing, and there was adequate ventilation, the Department of Health has advised us that students do not need to quarantine at this time.

Parents should monitor their child for any symptoms associated with COVID 19 and contact their health care provider if their child becomes symptomatic.

Sincerely,

Daniel D. Bowles  
Superintendent of Schools  
North Syracuse Central School District
