

## BRIGHTER TOGETHER

**Dr. Terry L. Ward, II**

Superintendent of Schools

Dear Families and Students,

In accordance with New York State Education department requirements, all public school districts are required to provide annual notification to students and families regarding advanced coursework opportunities. This letter is intended to ensure that students and families understand the benefits of participating in advanced courses and are aware of the opportunities and supports available.

Advanced coursework at North Syracuse offers students the opportunity to engage in challenging and enriching academic experiences. Participation in these courses can strengthen critical thinking, problem-solving, and analytical skills. Our courses help to prepare students for college and career expectations. Courses allow students to explore academic interests in greater depth. They also improve readiness for postsecondary opportunities for college credit.

Our students can prepare for advanced coursework through strong academic performance, completion of prerequisite courses, and development of effective study habits. Placement decisions are typically based on multiple measures, which include academic records, teacher recommendations, assessments, student interest, and readiness.

Families and students are encouraged to work closely with their child's school counselor and teachers when planning course selections and determining appropriate placement for the following year.

The North Syracuse Central School District offers Honors, Accelerated, Advanced Placement (AP) and college-level courses at our middle schools, junior high and high school.

Accelerated coursework at middle schools and junior high school:

Department	7th Grade	8th Grade
Art	none	Studio in Art
English	none	English Honors 8
Math	Math Honors 7	Algebra 1 Honors
Science	none	Earth and Space Science Honors
Social Studies	none	Social Studies Honors 8

Accelerated coursework for students in 9th - 12th grade can be found in the [Program of Studies](#) or on the North Syracuse Central School District website.

North Syracuse Central School District is committed to supporting student success in advanced coursework by providing academic support during WINN/Flex at the middle schools, and access to teachers for additional help after school at the junior high and high school. Our school counseling services can assist with course planning, workload management, and scheduling. Additionally, we have social-emotional support available to all students.

To ensure equitable access to all of our families, financial assistance may be available to help reduce or eliminate costs that can be associated with advanced coursework (AP and some college courses). Families who may need financial support are encouraged to fill out the Free and Reduced Application located [here](#) or on the North Syracuse Central School District website under "Food Services."

We encourage all students and families to consider advanced coursework opportunities and to reach out with questions or for guidance. Our district is committed to providing equitable access and support so that all students can succeed.

If you have any questions or would like more information, please contact your child's school counselor or visit the North Syracuse Central School District [website](#).

Sincerely,

A handwritten signature in blue ink that reads "Jamie Sullivan". The signature is fluid and cursive, with the first name "Jamie" and last name "Sullivan" clearly distinguishable.

Jamie Sullivan

Director of Secondary Education

North Syracuse Central School District
